

IS YOUR PET PROTECTED FROM THE HOLIDAY FIREWORKS AND GUNSHOTS?

- Keep your pets indoors when there are lots of fireworks and gunshots.
- Loud noises can make dogs bolt and end up lost so make sure your yard is secure so your dog can't escape.
- Make sure all your pets are microchipped and have a well-fitting collar with a tag identifying them.
- Talk to your vet about possible medications to help calm your dog during the worst times.
- Have a soundproof place in your house where your pet can escape the noise.
- Keep your pet occupied with a toy or Kong filled with treats to distract him from the fireworks.
- You may also want to have some calming background noise from the television or radio.

AND DON'T FORGET THE STREET DOGS. LIFE ON THE STREETS IS HARD AND WE EXPECT THESE LOUD NOISES MAKE THEIR LIFE HARDER.
